PRODUCT INFORMATION

CEILING MOUNTED OVERHEAD LEAD ACRYLIC BARRIER WITH LEAD CURTAIN AND LIGHT

The Ceiling Mounted Overhead Lead Acrylic Barrier With Lead Curtain and Light is a stable radiation barrier shield with 360 degrees of rotation which fits into exam rooms of any size. Able to be mounted above the exam space, this lightweight shield has significant reach and can be easily brought into position to provide exacting protection to your patients. The PTO-005 comes with a light on the second suspension arm to enable easier examination, and is fitted with a 24" x 14" lead curtain with 0.50mm PbEq protection, for ease of positioning on any number of body types and positions. It also features a stabilized suspension arm constructed from quality powder coated alloy, which makes it resistant to corrosion. In addition, the Ceiling Mounted Overhead Lead Acrylic Barrier With Lead Curtain and Light features a lead acrylic window measuring 24" x 16" with 0.50mm PbEq protection.

SPECIFICATION
