**PRODUCT INFORMATION**  
PATIENT RESTRAINT STRAP WITH 1 BUCKLE

The Patient Restraint Strap with 1 Buckle is a safety strap designed to securely restrain patients. Made from thermoplastic urethane and featuring ultrasonically welded seams, it is the only high-level disinfectable surgical table strap. With its seamless design, these straps are easy to clean, devoid of puncture holes, stitching, or seams. This eradicates potential hiding spots for bacteria, significantly lowering the risk of cross-contamination. This innovative construction permits complete and repeated submersion in high-level disinfectants.

Moreover, this Phillips Safety strap offers universal compatibility with all surgical tables and allows secure fastening around the table or through side rails. The Patient Restraint Strap with 1 Buckle features a 2-inch wide belt and comes equipped with a cam-style metal buckle. It's also latex-free and comes in four different lengths: 96", 108", 120", and 132".
