PRODUCT INFORMATION

POLYCARBONATE WELDING WINDOW, GREEN SHADE 3

The Polycarbonate Welding Window is a sheet made of high-quality polycarbonate for use in welding windows or portholes for automated welding. It can be custom cut in any size sheet up to 48" x 96". This Phillips Safety welding sheet is 0.044" thick and is available in Green Shade 3.

The requested dimensions will be held to +1/16" tolerance. If you require a more precise tolerance, do not order on this site. Send your request to sales-team@phillips-safety.com for a quote. If you would like to learn more about this product, download a copy of the Product Brochure.
