## PRODUCT INFORMATION

### 13" VELCRO/NYLON REPLACEMENT WRIST STRAPS, SET OF 4

The 13" Velcro/Nylon Replacement Wrist Straps, Set of 4 are replacement wrist straps designed for the Extra Large Radiolucent Papoose Board. Made of high-quality Nylon and Velcro, this product comes in a set of four wrist straps, each of them with 13" in length. These Phillips Safety wrist straps are great to keep patients from moving, preventing unnecessary movement and struggle by keeping a firm grip on the patient's wrists. By using these straps, medical professionals are provided with more restraining options to use as needed, partly due to the diagonal design of the papoose boards. In addition, they can get a clear scan during the medical imaging process. The 13" Velcro/Nylon Replacement Wrist Straps are also great for both additional arm immobilization and keeping the torso open. The torso flap can be kept open when using these wrist straps, giving the medical professional more options when working with their patient.
