PRODUCT INFORMATION
PARALLEL MASHER

The Parallel Masher is a versatile tool designed for flattening and shaping glass. Made of high-quality aluminum, this masher comes with a set of two graphite round flat heads measuring 1.75" in diameter. Other head shapes are also available separately, including a lenticular head, a small radial head, a large radial head, and a 2" square flat head. For more information about different replacement heads, check out our Mashers collection.

SPECIFICATION
