

TRANSITION BIFOCAL SAFETY GLASSES

MODEL 206

FRAME INFORMATION

The Transition Bifocal Safety Glasses 206 are photochromic safety glasses that meet ANSI Z87 safety standards. They feature Transition gray lenses that turn clear indoors and gray in the sun, so you never have to change glasses when work brings you in and outdoors. Plus, it features ballistics-rated impact-resistant polycarbonate lenses, offering the best impact protection. The 206 model also offer 100% UVA/UVB protection. In addition, the Transition Bifocal Safety Glasses 206 are available with magnification ranging from +1.00 to +3.00.

Attention! Transitions lenses generally do not work in the car because they are activated by UV rays, and most car windshields have coating block UV.
