/ ABOUT US

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are met with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to curate and produce a line of quality glasses and lenses today. Leading manufacturer of laser safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certification, holding itself to a higher standard and priding itself on producing glasses with high-quality materials.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

/ FRAME STYLES

Phillips Safety carries a wide variety of impact rated ANSI Z87-2+ and EN 207 CE certified frames that are made for comfort, style, and function. Our laser safety glasses are specially curated by our dedicated team to be trendy and stylish, while not compromising practicality.

Phillips Safety glasses meet all levels of laser protection and are manufactured with attention to detail and high quality materials. We offer a range of different styles including wraparound, goggles, fit-overs, and various other options.

Whatever your need may be, Phillips Safety has a frame that will work for you in any industry.
