

# SAFETY READING GLASSES

## MODEL BLACKFIN

### FRAME INFORMATION

The Safety Reading Glasses BlackFin is a rectangular frame with anti fog lenses. These safety glasses feature magnifying lenses which reduce fatigue and eye strain. The BlackFin safety reading glasses are lightweight and made from TR-90 nylon to ensure durability. Plus, these safety reading glasses feature removable side shields for additional lateral protection, and are available with magnification from +1.00 to +3.00. In addition, the BlackFin has our exclusive permanent anti fog coating technology, which guarantees that the lenses of these reading glasses will never fog. These safety glasses are available in black. They also meet rigorous industry standards and are ANSI Z87+ approved for optimal protection.
