RADIATION WARNING SIGNS

Radiation warning signs play a critical role in ensuring the safety of employees who work in hazardous environments that may expose them to radioactive materials. At Phillips Safety, we offer a comprehensive collection of high-quality radiation warning signs to our customers. Our collection features an array of magnetic x-ray signage that is designed to be hung near entrances, equipment, or any area where radioactive materials may be present.

Our radiation warning signs collection is available in various sizes, colors, and materials. We offer options for plastic or magnetic properties to cater to your specific requirements. Additionally, we have different radiation warning signs with diverse messaging options, including bilingual signs in English and Spanish, biohazard indications, and pregnancy warnings.

CATEGORY INFORMATION
RADIATION WARNING SIGNS

One of the standout features of our radiation warning sign collection is the range of MRI Zone indications available. These range from I to IV and help to ensure that employees are adequately protected from exposure to magnetic fields associated with MRI machines. Another outstanding option is the range of wall-mounted LED warning signs, which improve safety for both patients and staff.

Phillips Safety's collection is comprehensive and includes an array of options to cater to different workplace requirements. Our radiation warning signs provide the necessary protection and support to ensure that your employees remain safe while working in areas with potential exposure to radioactive materials.
