Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

## CATEGORY INFORMATION

### WELDING GLASSES

Welding glasses are an essential piece of personal protective equipment for welders, as they provide protection against the bright light and harmful radiation emitted during welding. These glasses are designed to filter out harmful ultraviolet and infrared radiation, as well as visible light, while still allowing the welder to see their work clearly.

Phillips Safety collection of welding glasses offer high-quality frames, made of durable materials and designed to be comfortable to wear. With a variety of models, shapes, and lens filters available, our welding glasses are the perfect choice for any type of torch work.

Our welding glasses are designed to provide reliable protection and comfort for all welding needs. They are lightweight and comfortable to wear, ensuring that they stay securely on your face while you work. Plus, we have a wide range of models to choose from, each with its own unique shape, features, and colors.

**CATEGORY INFORMATION**  
**WELDING GLASSES**

In addition, our glasses are available with two different lens filters: Green lenses or Cobalt Blue lenses, allowing you to choose the filter that best suits your needs. They all feature optical-quality German glass lenses in a variety of IR shades, available from 2.0 to 8.0.

All of Phillips Safety's lens filters for welding meet or exceed ANSI Z87.1, EN 166, and EN 169 safety standards, ensuring that you are well-protected while working with welding. Moreover, all of our welding glasses are CE-certified, providing you with the assurance that you are using glasses that meet strict safety standards.
