DISPOSABLE EYE SHIELDS

Disposable eye shields are protective devices designed to ensure eye safety during laser procedures. These shields play a crucial role in shielding the eyes from the potentially harmful effects of laser radiation, a risk that, if unmitigated, could lead to serious eye damage or even blindness. Commonly employed in medical fields such as ophthalmology and dermatology, disposable eye shields provide a reliable barrier against laser-related risks.

Phillips Safety's collection of disposable eye shields includes two types. The Laser Eye Shield stands out as an exemplary protective gear during laser procedures, offering comprehensive protection across a broad spectrum of lasers, ranging from 315 nm to 11,000 nm, with an optical density of 7. Designed to disperse heat emitted from infrared lasers, these shields are compliant with safety standards such as EN207 and ANSI Z136.1 and .7.

CATEGORY INFORMATION
DISPOSABLE EYE SHIELDS

The IPL Eye Shield excels at blocking out wavelengths, energy, and intense lights generated by IPL and LED medical devices. Its unique layers reduce energy by a factor of 10,000, offering unparalleled protection for patients' eyes. With a focus on safety, hypoallergenic composition, and compliance with IPL ISO standards, this shield provides a robust defense against IPL-related risks.

Both types of disposable eye shields are manufactured in the United States and come in user-friendly packaging, with one option containing 25 pairs per box and the other featuring 50 pairs per box.

PRODUCT INFORMATION

IPL EYE SHIELD

The Theia IPL Eye Shields block out the wavelengths, energy, and extremely bright lights generated from IPL and LED medical devices. In other words, these IPL Eye Shield's unique layers reduce the energy by a factor of 10,000 while also shielding the bright lights from patients' eyes. In addition, the Theia Laser Eye Shields features an exclusive removal tab and are hypoallergenic, as well as latex-free.

The Theia IPL Eye Shields focuses on safety and meet the IPL ISO std 12609-1:2013-07, as well as European Class 1 Medical Device and Registered FDA Class 1 Medical Device.

The Theia IPL Eye Shields come with 50 pairs per box and are made in the USA.

SPECIFICATION

OD 7 from 315 -11,000nm

QTY: 50 PAIRS PER BOX

315 nm – 1,400 nm RI LB 7, D LB 6

1,400 nm – 11,000 nm DI LB 4, R LB 3

PRODUCT INFORMATION
LASER EYE SHIELD

The Theia Laser Eye Shields provide protection during laser procedures, protecting from all lasers operating between 315 nm – 11,000 nm with an optical density of 7. These Theia Laser Eye Shields also disperse the heat typically emitted from infrared lasers. In addition, the new Theia Laser Eye Shields feature an exclusive Two-Tab design for easy placement and removal and are latex-free.

The Theia Laser Eye Shields focus on safety and meet damage threshold requirements of EN207 and ANSI Z 136.1 and .7, as well as European Class 1 Medical Device and Registered FDA Class 1 Medical Device.

The Theia Laser Eye Shields come with 25 pairs per box and are made in the USA.

SPECIFICATION
