PHILLIPS SAFETY
PRODUCTS INC.

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

CATEGORY INFORMATION

GLASS LASER SAFETY GLASSES

Glass laser safety glasses are specialized eyewear designed to protect the eyes from the potentially harmful effects of laser radiation. These glasses feature specialized optical filters that selectively absorb or reflect particular wavelengths of laser light, guaranteeing that only safe levels of light reach the eyes. They play a critical role for individuals working in settings where lasers are utilized, including research laboratories, medical facilities, and industrial environments.

Phillips Safety's laser safety glasses with glass lenses feature advanced lens filters designed to provide exceptional laser protection. The combination of Phillips Safety's expertise in laser safety and the optimal features of the glass laser safety glasses makes them an ideal choice for professionals seeking superior optical performance and uncompromising safety in laser-intensive work settings.

CATEGORY INFORMATION
GLASS LASER SAFETY GLASSES

Made of high quality materials to provide the protection you need, our laser safety glasses with glass lenses include a wide range of filters. These laser filters feature different colors, optical densities, and visible light transmissions.

Our options offer varying visible light transmissions, ranging from 14% to 75%, depending on the specific laser color spectrums. Each product clearly indicates its corresponding VLT percentage. Moreover, all of our glass laser safety glasses strictly adhere to ANSI Z136.1 safety standards, ensuring the highest level of eye protection.
