PHILLIPS SAFETY
PRODUCTS INC.

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

CATEGORY INFORMATION
POLYCARBONATE LASER SAFETY GLASSES

Polycarbonate laser safety glasses are specialized eyewear designed to protect the eyes from the potentially harmful effects of laser radiation. These glasses are equipped with special optical filters that selectively absorb or reflect specific wavelengths of laser light, ensuring that only safe levels of light reach the eyes. They are crucial for individuals working in environments where lasers are used, such as in research laboratories, medical facilities, and industrial settings.

Phillips Safety's laser safety glasses with polycarbonate lenses feature advanced lens filters designed to provide exceptional laser protection. The combination of Phillips Safety's expertise in laser safety and the optimal features of the polycarbonate laser safety glasses makes them an ideal choice for professionals seeking superior optical performance and uncompromising safety in laser-intensive work settings.

CATEGORY INFORMATION
POLYCARBONATE LASER SAFETY GLASSES

Made of high quality materials to provide the protection you need, our laser safety glasses with polycarbonate lenses include a wide range of filters. These laser filters feature different colors, optical densities, and visible light transmissions.

Our options offer varying visible light transmissions, ranging from 2.5% to 85%, depending on the specific laser color spectrums. Each product clearly indicates its corresponding VLT percentage. Moreover, all of our polycarbonate laser safety glasses strictly adhere to ANSI Z136.1 safety standards, ensuring the highest level of eye protection.

CATEGORY INFORMATION
POLYCARBONATE LASER SAFETY GLASSES

A large, stylized letter 'P' in a teal color serves as a background graphic. It is composed of thick, rounded strokes. The top of the 'P' is a wide, curved bar. The vertical stem of the 'P' has a circular cutout in the middle. The bottom of the 'P' is a wide, curved base that tapers slightly towards the right.

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 33

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 33 is a durable and lightweight fitover frame. Made of high-quality plastic, the 33 laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GOGGLES 55

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety goggles 55 is a durable and lightweight fitover goggles frame. Made of high-quality plastic, the 55 laser safety goggles feature strap. These Phillips Safety laser safety goggles are available in silver.

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 206

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 206 is a durable and lightweight rectangular, wrap around frame. Made of high-quality plastic, the 206 laser safety glasses feature rubberized nosepads, rubberized temples, integrated side shields, and a removable dust dam. These Phillips Safety laser safety glasses are available in yellow/black opaque. Plus, it is prescription available.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 282

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 282 is a durable and lightweight wrap around, semi-rimless frame. Made of high-quality plastic, the 282 laser safety glasses feature rubberized nose pads. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 300

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 300 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 300 laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black. Plus, it is prescription available.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 808

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 808 is a durable and lightweight wrap around frame. Made of high-quality plastic, the 808 laser safety glasses feature rubberized nose pads and rubberized temple bars. These Phillips Safety laser safety glasses are available in black and silver. Plus, it is prescription available.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 1375

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 1375 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 1375 laser safety glasses feature bent temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 16001

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 16001 is a durable and lightweight wrap around frame. Made of high-quality plastic, the 16001 laser safety glasses feature adjustable nosepads. These Phillips Safety laser safety glasses are available in black/blue. Plus, it is prescription available.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES 17001

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 17001 is a durable and lightweight rectangular, wrap around frame. Made of high-quality plastic, the 17001 laser safety glasses feature rubberized temples. These Phillips Safety laser safety glasses are available in black/green. Plus, it is prescription available

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES ECOFIT

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87+ and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses EcoFit is a durable and lightweight OTG frame. Made of high-quality plastic, the EcoFit laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
CD2 LASER SAFETY GLASSES OTG

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87+ and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses OTG is a durable and lightweight OTG frame. Made of high-quality plastic, the OTG laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 33

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 33 is a durable and lightweight fitover frame. Made of high-quality plastic, the 33 laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GOGGLES 55

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety goggles 55 is a durable and lightweight fitover goggles frame. Made of high-quality plastic, the 55 laser safety goggles feature strap. These Phillips Safety laser safety goggles are available in silver.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 66

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 66 is a durable and lightweight oversized frame. Made of high-quality plastic, the 66 laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black and silver.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 206

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 206 is a durable and lightweight rectangular, wrap around frame. Made of high-quality plastic, the 206 laser safety glasses feature rubberized nosepads, rubberized temples, integrated side shields, and a removable dust dam. These Phillips Safety laser safety glasses are available in yellow/black opaque.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 300

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 300 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 300 laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 808

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 808 is a durable and lightweight wrap around frame. Made of high-quality plastic, the 808 laser safety glasses feature rubberized nose pads and rubberized temple bars. These Phillips Safety laser safety glasses are available in black and silver.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 1375

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 1375 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 1375 laser safety glasses feature bent temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 16001

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 16001 is a durable and lightweight wrap around frame. Made of high-quality plastic, the 16001 laser safety glasses feature adjustable nosepads. These Phillips Safety laser safety glasses are available in black/blue.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES 17001

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 17001 is a durable and lightweight rectangular, wrap around frame. Made of high-quality plastic, the 17001 laser safety glasses feature rubberized temples. These Phillips Safety laser safety glasses are available in black/green.

FRAME SPECIFICATION

PRODUCT INFORMATION
YAG LASER SAFETY GLASSES OTG

The YAG laser safety glasses have a polycarbonate green lens filter that provides laser protection. These laser glasses have visible light transmission of 54%. In addition, the YAG laser safety glasses have ANSI Z87+ and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses OTG is a durable and lightweight OTG frame. Made of high-quality plastic, the OTG laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.
