LASER PATIENT PROTECTION

Safeguarding both practitioners and patients, Phillips Safety's laser patient protection products are designed with precision and care to ensure optimal safety during laser procedures.

Our laser ocular shields stand as the forefront defense against potential ocular damage during laser treatments. Crafted with high-quality materials and advanced engineering, these shields provide a reliable barrier against harmful laser radiation, offering peace of mind for both patients and medical professionals alike. With various designs and sizes available, our ocular shields cater to diverse clinical needs, ensuring comfortable and effective protection.

For added protection, consider our laser shield plates, engineered to absorb and deflect laser energy away from vulnerable areas. These plates offer a versatile solution for safeguarding specific regions of the body, minimizing the risk of accidental exposure during intricate procedures. Whether used as standalone protection or in conjunction with other safety measures, our laser shield plates provide an essential layer of defense against potential hazards.

CATEGORY INFORMATION
LASER PATIENT PROTECTION

In addition to ocular shields and shield plates, our collection includes lid clamps designed to secure protective eyewear in place, preventing slippage or displacement during treatment sessions. Engineered for compatibility with various eyewear models, our lid clamps ensure a snug and reliable fit, allowing patients to undergo laser procedures with confidence and comfort.

Furthermore, our patient blackout glasses offer comprehensive eye protection by effectively blocking out harmful laser wavelengths while maintaining visual clarity. Featuring durable construction and ergonomic design, these glasses prioritize both safety and comfort, enabling patients to undergo laser treatments without compromising on vision quality or comfort.

At Phillips Safety, we understand the importance of prioritizing safety without compromising on performance or comfort. That's why our Laser Patient Protection products undergo rigorous testing and quality assurance processes to meet the highest industry standards. With our comprehensive range of protective solutions, you can elevate your laser safety protocols and enhance the overall experience for practitioners and patients alike.

PRODUCT INFORMATION
LASER OCULAR SHIELD WITH HANDLE

The Laser Ocular Shield with Handle is an essential safeguard designed for unparalleled eye protection during IPL and laser procedures conducted near the eyes and facial areas. Crafted with precision and boasting a stainless steel construction, it ensures a gentle fit through its non-reflective anterior surface, prioritizing safety and comfort to prevent corneal abrasion. For additional convenience, the attached handle facilitates a secure and controlled removal process. Available in four sizes (XS, S, M, L) and two orientations (Left, Right), this ocular protector is sold in pair. The Laser Ocular Shield stands as a singular solution, prioritizing patient safety and comfort during laser procedures.

PRODUCT SPECIFICATION

MATERIAL: Stainless Steel

FEATURES: Handle

COLOR: Gray

PRODUCT INFORMATION
LASER OCULAR SHIELD WITH SUCTION CUP

The Laser Ocular Shield with Suction Cup is a specialized ocular shield designed to provide optimal eye protection for patients undergoing laser procedures. Crafted with precision from stainless steel, this shield features a non-reflective anterior surface ensuring a secure and gentle fit. Plus, the addition of a suction cup enables a secure and safe removal process, underscoring its commitment to patient well-being during laser procedures. Available in four sizes (XS, S, M, L) and two orientations (Left, Right), this ocular protector is sold in pair. With its unique design and attention to detail, the Laser Eye Protector Suction Cup stands as a singular solution, and complies with CE EN 93/42/EEC safety standards.

PRODUCT SPECIFICATION

MATERIAL: Stainless Steel

COLOR: Gray

FEATURES: Suction Cup

CE Certified

PRODUCT INFORMATION

LASER SHIELD LID PLATES | LS-LP-FLT | LS-LP-BNT | LS-LP-PRF

The Laser Shield Lid Plates are specifically designed to provide unmatched stability and protection during lid dissection procedures. A revolutionary advancement in ophthalmic surgery instrumentation, they are engineered for precision and safety. The key feature of these plates is the incorporation of a state-of-the-art laser shield, ensuring enhanced safety for both patients and surgeons. Phillips Safety's Laser Shield Lid Plates are available in three versatile configurations to cater to various surgical needs – bent, flat, and perforated, each tailored to meet different surgical preferences. Whether you opt for the bent, flat, or perforated configuration, rest assured that you are equipped with a cutting-edge instrument that prioritizes safety, stability, and precision in every procedure.

PRODUCT SPECIFICATION

COLOR: Gray

MATERIAL: Stainless Steel

SAFETY STANDARDS: CE EN 93/42/EEC

TYPES: Bent, Flat, Perforated

PRODUCT INFORMATION

LID CLAMP | LS-LC-STD

The Lid Clamp is a precision-engineered instrument designed for delicate and controlled upper eyelid retraction during laser blepharoplasty procedures. Crafted with utmost care, this essential tool prioritizes patient safety and comfort while providing surgeons with a reliable aid for meticulous surgical interventions. Its finely crafted stainless steel construction ensures durability and precision, allowing for precise maneuvering in the surgical field.

Users must exercise caution and adhere to critical usage guidelines to optimize safety and efficacy.
