LASER SAFETY GLASSES

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

CATEGORY INFORMATION

LASER SAFETY GLASSES

Phillips Safety is proud to offer our customers a great assortment of high-quality laser safety glasses and goggles. At Phillips Safety, we manufacture and provide a complete line of laser eyewear protection for all lasers, including products for Medical, Military, Research & Education, and Industrial laser applications. Our goal is to give you high-quality laser protection glasses and laser protection products for eyes/vision and skin.

When dealing with lasers, your choice of eyewear is not to be something you cheap out. Phillips Safety's protective laser safety eyewear protects your eyes by offering a wide range of laser filters. Our laser products will protect your eyes against Class 3R, Class 3B, and Class 4 laser systems.

When buying your laser safety glasses or goggles, be sure to select the best protective laser glasses. They should fit well, protect from all angles of vision, and block or attenuate the appropriate wavelength range and OD (Optical Density) emitted from the laser tools you work with. The operating parameters of your laser, or a Certified Laser Safety Officer (LSO), will determine what laser safety glasses you should use to prevent injuries.

CATEGORY INFORMATION
LASER SAFETY GLASSES

If you do not have a CLSO on staff or information in your laser manual, don't hesitate to contact us so our laser safety experts can help you. We offer free consultation and OD calculations for laser systems. Plus, CE certified laser safety glasses and goggles are also available.

At Phillips Safety, we pad print the wavelengths that the glasses protect you against directly onto the frame. We also offer custom pad printing, so if you're interested in this service, please contact us for pricing information. Our protective laser glasses meet or exceed ANSI Z136.1 requirements for use with laser systems and tools.

Don't hesitate to check out our collection of laser safety glasses. We are confident that you will find the perfect glasses for your needs with the features and specifications you will love. If you need help or more information about our products, we are just one click away: talk to us through our chat, e-mail us at service@phillips-safety.com, or call us at 1-866-575-1307.

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 33

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 33 is a durable and lightweight fitover frame. Made of high-quality plastic, the 33 laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

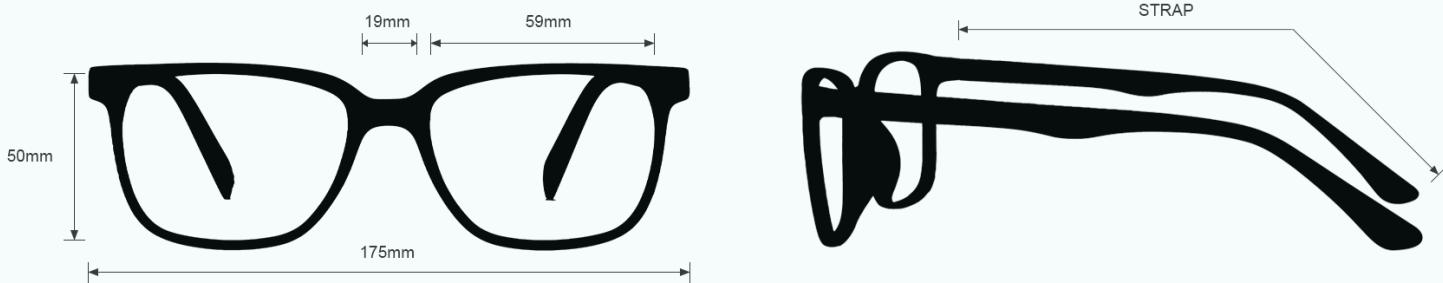

PRODUCT INFORMATION

CD2 LASER SAFETY GOGGLES 55

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety goggles 55 is a durable and lightweight fitover goggles frame. Made of high-quality plastic, the 55 laser safety goggles feature a strap. These Phillips Safety laser safety goggles are available in silver.

FRAME SPECIFICATION

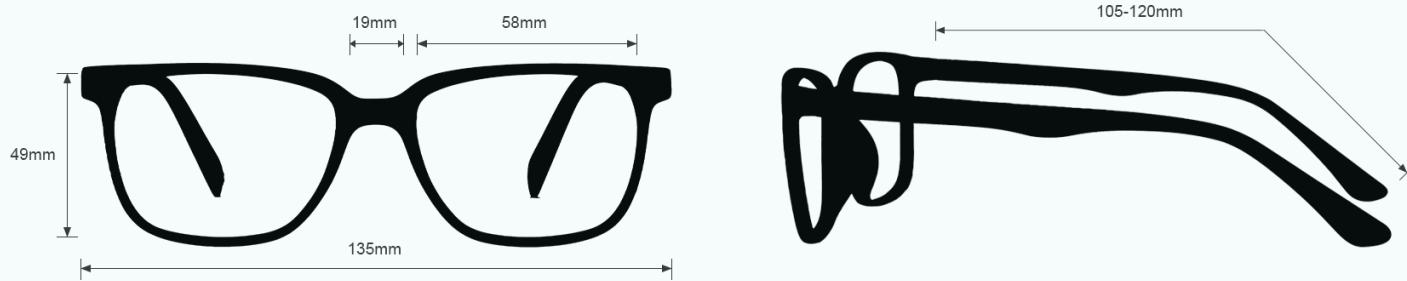

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 66

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 66 is a durable and lightweight oversized frame. Made of high-quality plastic, the 66 laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black and silver. Plus, it is prescription available.

FRAME SPECIFICATION

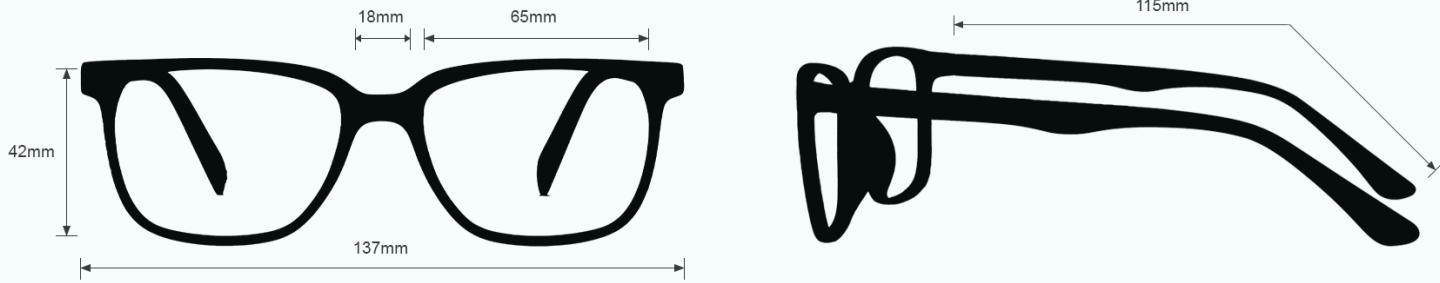

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 282

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 282 is a durable and lightweight wrap around, semi-rimless frame. Made of high-quality plastic, the 282 laser safety glasses feature rubberized nosepads. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

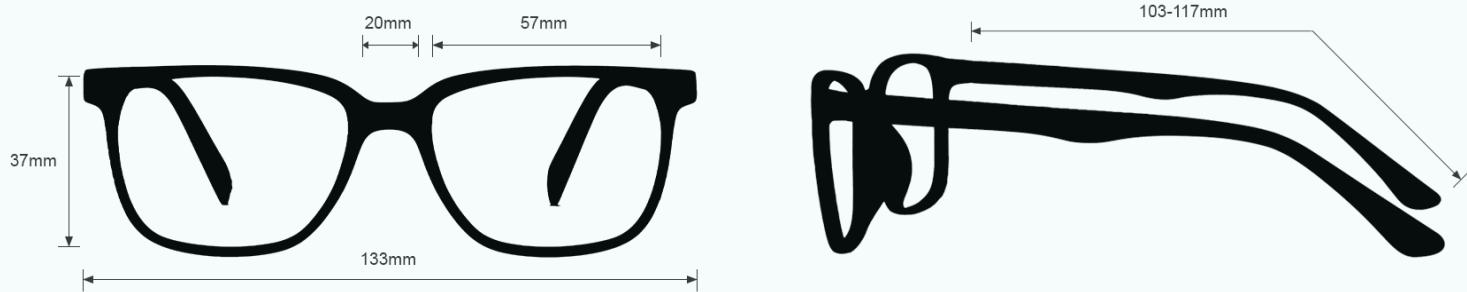

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 300

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 300 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 300 laser safety glasses feature adjustable temples and permanent side shields. These Phillips Safety laser safety glasses are available in black. Plus, it is prescription available.

FRAME SPECIFICATION

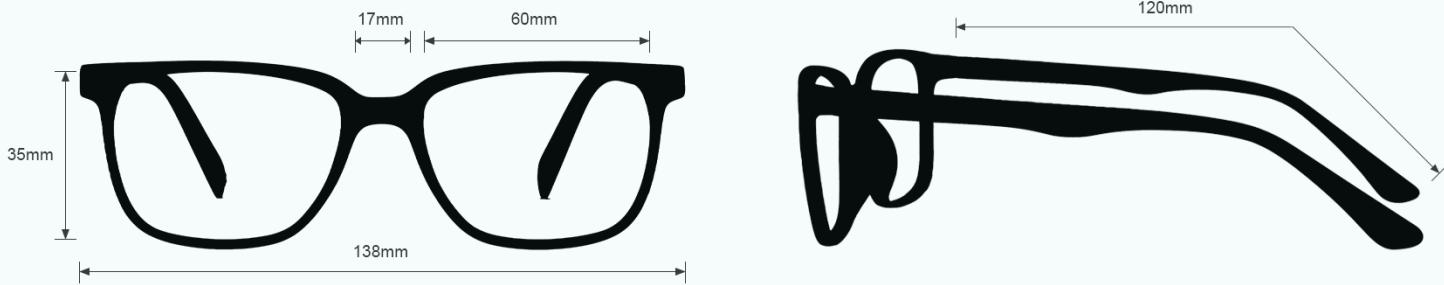

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 808

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 808 is a durable and lightweight wrap around frame. Made of high-quality plastic, the 808 laser safety glasses feature rubberized nosepads and rubberized temple bars. These Phillips Safety laser safety glasses are available in black and silver. Plus, it is prescription available.

FRAME SPECIFICATION

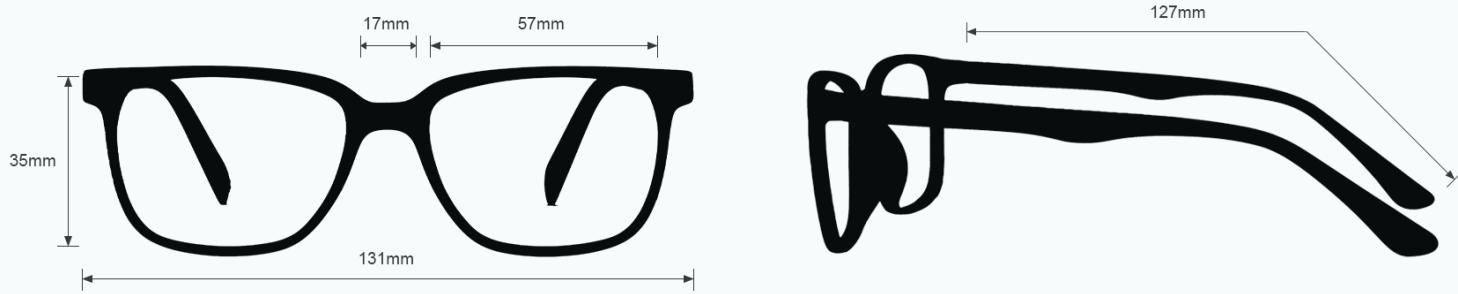

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 1375

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 1375 is a durable and lightweight rectangular frame. Made of high-quality plastic, the 1375 laser safety glasses feature bent temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

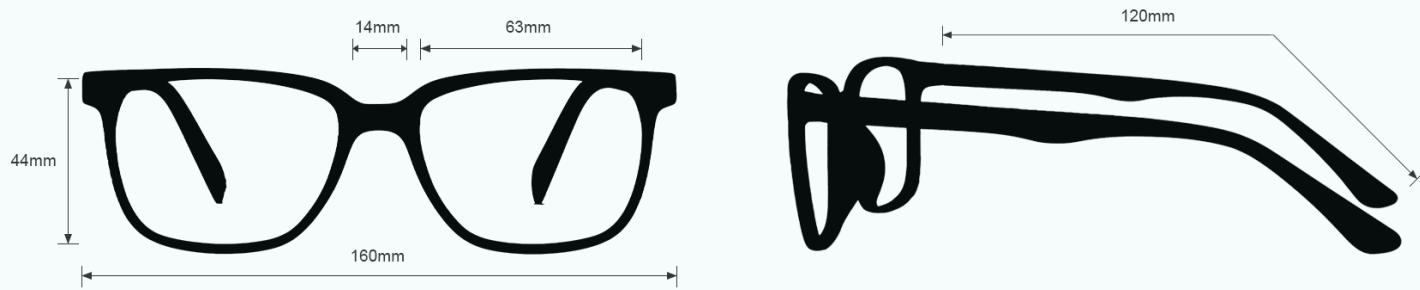

PRODUCT INFORMATION

CD2 LASER SAFETY GLASSES 9388

The CD2 laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 82%. In addition, the CD2 laser safety glasses have ANSI Z87.1 and ANSI Z136.1 safety standards and CE certified lens. These laser safety glasses 9388 is a durable and lightweight oversized frame. Made of high-quality plastic, the 9388 laser safety glasses feature adjustable temples and integrated side shields. These Phillips Safety laser safety glasses are available in black.

PRODUCT INFORMATION

IPL SHUTTER SAFETY GLASSES

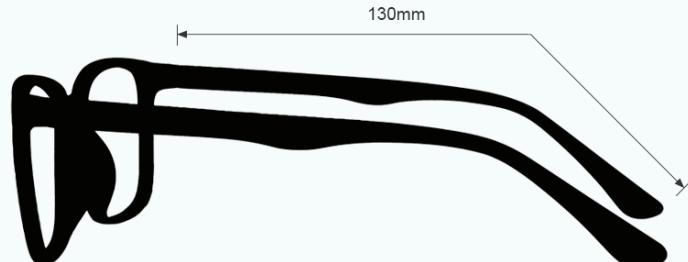

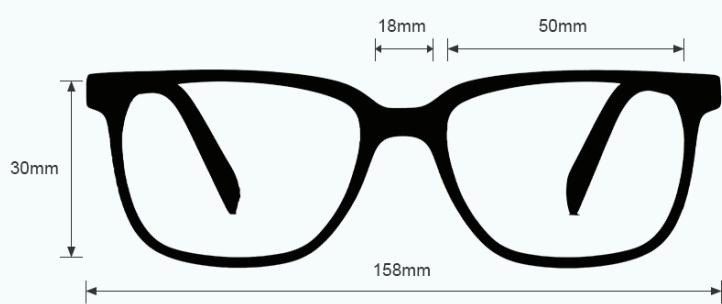

The IPL Shutter safety glasses with polycarbonate green lens filter are designed to provide enhanced protection specifically for IPL intense pulsed treatments, where the colored light's intensity surpasses the welding arc light by 10,000 times. These glasses, meeting ANSI Z87+ and ANSI Z136.1 safety standards, are equipped with advanced electronic metering automatic shading technology. This technology, using a micro-computer chip, allows for real-time shading depth protection. The Shutter glasses can instantly obscure IPL glare in less than 0.001 seconds, with a blackness value reaching $T=0.0001\%$, thanks to a light valve mechanism akin to a camera shutter. Their visible light transmission is at 10% and they are suitable for IPL 190-2000nm.

Their unique shutter technology ensures that the IPL glare is completely blocked when detected, and then they revert to high-transmission glasses when the glare ceases, efficiently isolating ultraviolet and infrared light. This makes them a significant advancement in the IPL color beauty industry, offering unparalleled eye safety for IPL beauty practitioners. Made of high-quality plastic, these durable and lightweight fitover frame glasses are available in white, also featuring symmetrical ventilation technology for air circulation and bent temples for a secure and comfortable fit in any situation.

VLT= 10%

For IPL use only.

FRAME SPECIFICATION

PRODUCT INFORMATION

ADVANCE PATIENT BLOCKOUT GLASSES | LS-SS-ADJ-BO

The Patient Blockout Glasses is a stainless steel goggle that provides patient eye protection for Laser and IPL treatments. The Advance Patient Blockout Glasses feature autoclavable glasses and one set of metal rings. In addition, these Patient Blockout Glasses also come with an adjustable strap and a storage case.

OD 7+ 200nm-10600nm

PRODUCT INFORMATION

P SHIELD GLASSES | LS-SI-BO

The P Shield Glasses is a goggle that provides patient eye protection for Laser and IPL treatments. These P Shield Blockout Glasses are made from soft and pliable TPU, which provides a comfortable fit. In addition, these Patient Blockout Glasses also come with an adjustable strap and a storage case. The Display Wavelength (nm) / OD is 190-10600nm OD 7+.

In addition, the P Shield has the following CE Rating:

190-315 D LB8 + IR LB4

>315 1400 D LB6 + IR LB7 + M LB7Y

>1400-11000 DI LB3

SPECIFICATION

FEATURES: Adjustable Strap and Storage Case

MATERIAL: Thermoplastic Polyurethane

PRODUCT INFORMATION

PREMIUM ADJUSTABLE PATIENT BLOCKOUT GLASSES | LS-PREM-ADJ-BO

The Premium Adjustable Patient Blockout Glasses offer superior eye protection for Laser and IPL treatments. Featuring a unique in-and-out adjustable design, they provide a secure and comfortable fit for various patient needs. Their lightweight construction ensures optimal performance during medical procedures.

SPECIFICATION

COLOR: Gray

SHAPE: Goggles

FEATURES: Adjustable In and Out, Adjustable Strap

PRODUCT INFORMATION

SILICONE RING FOR ADVANCE PATIENT BLOCKOUT GLASSES

The Silicone Ring is a comfortable and practical accessory designed for use with the Advance Patient Blockout Glasses. It fits securely around the edges of the goggles, enhancing comfort during Laser and IPL treatments. Made from high-quality silicone, this ring ensures a snug and cushioned fit for patients.

PRODUCT INFORMATION

IPL EYE SHIELD

The Theia IPL Eye Shields block out the wavelengths, energy, and extremely bright lights generated from IPL and LED medical devices. In other words, these IPL Eye Shield's unique layers reduce the energy by a factor of 10,000 while also shielding the bright lights from patients' eyes. In addition, the Theia Laser Eye Shields features an exclusive removal tab and are hypoallergenic, as well as latex-free.

The Theia IPL Eye Shields focuses on safety and meet the IPL ISO std 12609-1:2013-07, as well as European Class 1 Medical Device and Registered FDA Class 1 Medical Device.

The Theia IPL Eye Shields come with 50 pairs per box and are made in the USA.

SPECIFICATION

OD 7 from 315 -11,000nm

QTY: 50 PAIRS PER BOX

315 nm – 1,400 nm RI LB 7, D LB 6

1,400 nm – 11,000 nm DI LB 4, R LB 3

PRODUCT INFORMATION

LASER EYE SHIELD

The Theia Laser Eye Shields provide protection during laser procedures, protecting from all lasers operating between 315 nm – 11,000 nm with an optical density of 7. These Theia Laser Eye Shields also disperse the heat typically emitted from infrared lasers. In addition, the new Theia Laser Eye Shields feature an exclusive Two-Tab design for easy placement and removal and are latex-free.

The Theia Laser Eye Shields focus on safety and meet damage threshold requirements of EN207 and ANSI Z 136.1 and .7, as well as European Class 1 Medical Device and Registered FDA Class 1 Medical Device.

The Theia Laser Eye Shields come with 25 pairs per box and are made in the USA.

SF6/PKA RADIATION/LASER GLASSES EGM

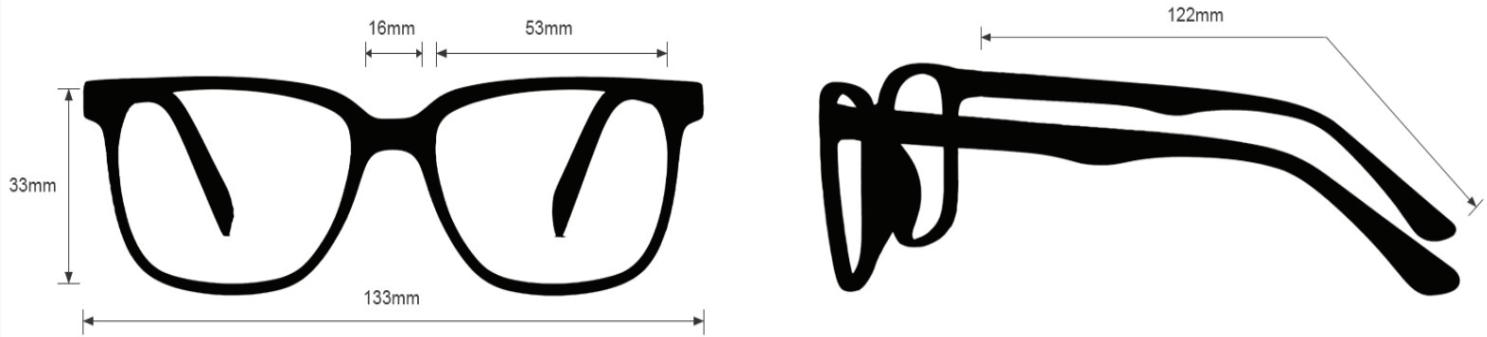

The SF6/PKA Radiation/Laser Glasses 33 offer laser and radiation protection in a single lens. They are ideal for operator eye protection during procedures using C-Arm Fluoroscopy and UV and Excimer lasers. The radiation lenses provide 0.75mm PbEq and are made with the highest-quality glass lens from Schott. The EGM glasses feature rubberized nosepads, rubberized temples and name engraving. Made of high-quality plastic, it is a durable and lightweight rectangular, wrap around frame. These Phillips Safety prescription radiation glasses are available in black, gray, blue, and red.
