PRODUCT INFORMATION
HOYA HA-15 FILTER GLASS

Heat Absorbing Filters feature high transmittance in the visible region and good absorption of heat rays (infrared rays). They efficiently absorb thermal radiation emitted from light sources and are highly effective when employed for slide projectors and illumination equipment. To prevent a Filter Glass from being broken by rapid heating or cooling, this filter can be also provided as a thermal toughening tempered glass. Application: Medical

SPECIFICATION

Brand: Hoya

Optical Filter: Heat Absorbing Filter
