PRODUCT INFORMATION

QUICKSHIP LAPGUARD HALF LEAD APRON

QS-RA-LGHA

The QuickShip LapGuard Half Lead Apron helps reduce radiation exposure by protecting the abdomen and pelvis. Its flexible design provides comfort and support for both men and women. Additionally, adjustable waist straps and a buckle closure ensure a secure fit. The open-back design also allows easy movement throughout the day.

The Lightweight Lead core delivers 0.50mm Pb lead equivalency for reliable radiation protection. Moreover, customers can choose Nylon or Ripstop outer materials in various colors with black binding. The apron comes in three sizes, from small to large, to fit different body types. Furthermore, the core material meets ASTM F3094-14 testing standards for consistent performance.

2-Year Warranty – Radiation protection apparel is covered against manufacturing defects.
