PRODUCT INFORMATION

PVC EASYCLEAN LIGHTWEIGHT LEAD DENTAL LEAD APRON

The PVC EasyClean Lightweight Lead Dental Apron is a highly effective and comfortable solution for reducing radiation exposure. This apron covers the front of the body, from the neck to just below the waist, providing excellent anterior torso protection, including the shoulders and thyroid. It features a quick and adjustable Velcro closure around the neck, ensuring a secure fit. Additionally, the apron is designed for easy storage with hanging loops by the collar, making it convenient to store on an apron hanger or peg racks.

Suitable for both men and women, this lead apron for dental x rays is made from high-quality Lightweight Lead with a 0.25mm Pb lead equivalency. The outer material is crafted from PVC EasyClean, a durable and ultra-resistant fabric that is very easy to clean. It comes in fourteen different colors and patterns, along with six binding color options. This lead apron dental has also passed the universally recognized ASTM F3094-14 testing procedures.
