PRODUCT INFORMATION

QUICKSHIP LEAD FREE VEST & SKIRT FULL OVERLAP LEAD APRON

The QuickShip Lead Free Vest and Skirt Full Overlap Lead Apron is a highly effective and comfortable two-piece garment designed to significantly reduce radiation exposure. This lead apron consists of two separate components: a vest and a skirt. The vest covers the front and back of the body from the shoulders to the waist, while the skirt covers from the waist to just above the knees. Together, they provide excellent protection for the anterior and posterior torso, from the shoulders to the thighs. Both pieces feature an internal Velcro closure for secure and adjustable fitting. The vest is also equipped with a front patch pocket and shoulder pads for added comfort.

Suitable for both men and women, the Vest and Skirt Full Overlap Lead Apron is lead-free and offers 0.50mm Pb lead equivalency in the front and 0.25mm Pb lead equivalency in the back. The outer material is made from high-quality Nylon and is available in blue or black with black binding. The apron comes in five sizes, from small to extra extra large. Additionally, the core material meets the ASTM F3094-14 testing standards.
