PRODUCT INFORMATION

QUICKSHIP VEST & SKIRT FULL OVERLAP LEAD APRON

The QuickShip Vest & Skirt Full Overlap Lead Apron is an excellent and comfortable two-piece solution for reducing radiation exposure. This apron set includes a vest and a skirt: the vest covers the front and back of the body from shoulders to waist, while the skirt covers from waist to above the knees. Together, they offer comprehensive protection for the torso, both anteriorly and posteriorly, from shoulders to thighs. Both pieces feature Velcro closures on the inside for adjustability and secure fitting.

Designed for both men and women, the Vest and Skirt Full Overlap Lead Apron is available in three core materials: Lightweight Lead and Axion Core™ 2000, each providing a 0.50mm Pb lead equivalency in the front and a 0.25mm Pb lead equivalency in the back. The outer material is made of high-quality Nylon, with color options of blue or black featuring black binding. This apron is offered in five sizes, ranging from small to extra extra large, and complies with the ASTM F3094-14 testing standard.
