PRODUCTS INC.

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

CATEGORY INFORMATION
CLIP ON FLIP UP WELDING GLASSES

Clip on flip up welding glasses are specialized eyewear designed for use in welding applications. They consist of a clip-on frame that attaches to the user's existing eyewear, along with flip-up lenses that provide eye protection during welding. The lenses are made of materials that are resistant to high heat and impact, such as glass or plastic, and are tinted to filter out harmful ultraviolet (UV) and infrared (IR) radiation emitted during welding.

Phillips Safety offers the highest-quality clip-on flip-up welding glasses in the market, specifically designed for use in molten metal observation and cutting applications. They are available in Green and Cobalt Blue lens filters in a variety of shades, mostly ranging from 2.0 to 8.0, depending on the model.

CATEGORY INFORMATION
CLIP ON FLIP UP WELDING GLASSES

Our clip on flip up welding glasses are also available in a variety of shapes, depending on the specific welding application and user preferences. They are designed to be practical and convenient, as the flip-up lenses can be easily moved up or down as needed for quick transitions between tasks. These glasses are ideal for use in situations where the user needs both prescription eyewear and welding eye protection, or when using hard hats.

Moreover, our clip-on flip-up welding lenses are made of high-quality optical glass and plastic. The metal-framed clip-ons are suitable for use with regular glasses, hard hats, bump caps, or with metal universal clips, while the plastic-lensed versions are ideal for use with most eyewear styles.

PRODUCT INFORMATION

COBALT BLUE HARD HAT CLIP-ON FOUNDRY EYEWEAR

The Cobalt Blue Hard Hat Clip-On Foundry is a polycarbonate clip-on featuring glass lenses with torching-protective qualities. This lightweight clip-on was designed to fit onto any hard hat or bump cap brim and to be worn in conjunction with your existing safety eyewear. It is available in four different shades: 4.0, 5.0, 6.0, and 8.0. For easy and practical use, this clip-on features a flip-up mechanism that is quickly flipped down to enhance your vision, and then flip back up when not needed. In addition, it features a gooseneck mechanism for easy raising and lowering of the lenses, and the resistant polycarbonate frame can withstand high temperatures. The Cobalt Blue Hard Hat Clip-On Foundry is recommended for uses with welding, torching, metal cutting, and observation of molten metals. Please note that the hard hat is not included with the clip-on.
