**PRODUCT INFORMATION**  
NUCLEAR MEDICINE SYRINGE SHIELD 1ML

Phillips Safety's Nuclear Medicine Syringe Shield for 1ml syringes is built to provide reliable radiation protection in nuclear medicine environments. This precision-engineered shield features a compact design crafted from a dense tungsten alloy, offering dependable safety without sacrificing usability.

Ideal for minimizing radiation exposure during radiopharmaceutical preparation and injection, this syringe shield also features a lead glass viewing window for clear, unobstructed monitoring of the syringe contents.

**Key Features:**

- 5mm Pb Equivalence: Delivers trusted protection during nuclear medicine procedures.
- High-Density Construction: Made from tungsten alloy for superior shielding in a compact design.
- Lead Glass Viewing Window: Provides clear visibility of the syringe contents for accurate dosing and safety.
- 1ml Syringe Compatibility: Specifically designed to securely hold and protect standard 1ml syringes.
- Professional Use: Ideal for hospitals, imaging centers, and radiopharmacies.

This shield is an essential safety tool for professionals who routinely handle radiolabeled materials.

**SPECIFICATION**

**BRAND:** Phillips Safety

**MATERIAL:** Tungsten Alloy

**PROTECTION LEVEL:** 5mm PbEq

**FEATURES:** Lead Glass Window, 1ml Syringe Compatibility
