PRODUCT INFORMATION

PHILLIPS SHADE 3, 4, 5 FACE SHIELD UV/IR

The Phillips Safety Shade 3, 4, 5 Face Shield is the modern answer to impact protection, specifically engineered for grinding, brazing, and oxyfuel cutting applications. This next-generation shield features a high-density, contoured lens that is 90% thicker than a traditional face shield (0.077" vs 0.040"). This added layer of defense is paired with multi-axis headgear to enhance comfort and provide a fully personalized fit. Fully ANSI Z87+ approved, this shield is the professional's choice for superior face protection.

Shade 3,4,5 IR Protection: The specialized lens blocks infrared light, making it the ideal solution for brazing and cutting environments.

Superior Impact Resistance: Premium polycarbonate construction offers a protective barrier 90% thicker than standard shields for enhanced durability.

All-Day Comfort: A cushioned front and back headband eliminates pressure points and evenly distributes weight.

Customizable Fit: Multi-axis, adjustable headgear provides optimal function for numerous operators.

Optimal Coverage: The contoured lens shape ensures a full field of view while extending critical protection to the face and neck.
