

# SAFETY READING GLASSES

## MODEL 13001

### FRAME INFORMATION

The Safety Reading Glasses 13001 have a wrap-around frame with anti-fog lenses. These safety glasses feature magnifying lenses which reduce fatigue and eye strain. The 13001 safety reading glasses are lightweight and made of high-quality plastic construction. Plus, these safety reading glasses feature rubberized nose pads and no-slips temples for superior comfort. They are available with magnification from +1.00 to +3.00.

In addition, the 13001 has our exclusive permanent anti-fog coating technology, which guarantees that the lenses of these reading glasses will never fog. Plus, these safety glasses come in matte black. They also meet rigorous industry standards and are ANSI Z87.1 and EN 166 approved for optimal protection.
