RADIATION WARNING SIGNS

Phillips Safety is happy to offer a great assortment of high-quality radiation warning signs to our customers, offering a comprehensive range of options to meet various safety needs. We take pride in providing high-quality safety products, ensuring the utmost safety and reliability.

Our radiation warning signs are available in different materials, including aluminum, magnetic, plastic, and LED illuminated signs. Each material offers its unique advantages to suit different environments and requirements. Aluminum signs are known for their durability and resistance to harsh conditions, while magnetic signs provide flexibility and easy application. Plastic signs are lightweight and versatile, making them suitable for various applications.

In addition, you can choose warning signs with a variety of sentences. These include bilingual signs with English and Spanish, biohazard indications, and pregnancy warnings.
