PRODUCT INFORMATION

WIDE UNIVERSAL ARM BOARD NON-SLIP PAD | AB-SLIP-PAD

Ensure patient stability and clinician peace of mind with our Wide Universal Arm Board Non-Slip Pad. Designed to fit wide surgical and exam arm boards, this high-friction pad provides a dependable, cushioned surface that prevents limb slippage during delicate procedures.

Key Features:

- **Extra-Wide Coverage:** The generous surface area accommodates various patient sizes and arm positions, ensuring comprehensive support without “dead zones.”
- **High-Traction Texture:** Engineered with a specialized non-slip material that keeps arms securely in place, even when tilted or angled.
- **Simple Peel-and-Stick Application:** Features industrial-strength adhesive strips on the back. Just peel the protective liner and press firmly onto your arm board for a semi-permanent, rock-solid bond.
- **Hygiene-First Design:** The non-porous surface is easy to wipe down and compatible with standard hospital-grade disinfectants.
- **Durable Comfort:** Provides a subtle layer of cushioning to help reduce pressure point irritation during long sessions.

SPECIFICATION

COLOR: Blue

FEATURES: High-Traction Texture, Extra-Wide Coverage, Simple Peel-and-Stick Application, Non-porous surface.
