

# RADIATION SAFETY GLASSES

RK2

## FRAME INFORMATION

The Radiation Goggles RK2 feature distortion-free SF-6 Schott glass radiation-reducing lenses with 0.75mm Pb lead equivalency protection. The clear CE Certified lenses provide excellent visual clarity, and the lightweight design weighs only 94.2g. Prescription lenses are also available.

The durable wraparound frame combines comfort and protection for daily use. A soft foam eyecup helps create a secure seal around the eyes, while the adjustable head strap provides a stable and personalized fit. The lightweight construction supports extended wear without sacrificing protection. Available in black, the Phillips Safety Radiation Goggles RK2 offer a practical solution for professionals who need dependable radiation eyewear.
