PRODUCT INFORMATION
45 DEGREE SPINAL FLARED EDGE COATED WEDGE
PPFP-PCBC | PPFP-PCBB | PPFP-PCBD

The 45 Degree Spinal Flared Edge Coated Wedge supports and positions the body during spinal imaging procedures. Its 45-degree design provides angled support for positioning during examinations. The wedge is available in three sizes:

- **Small:** 13.5" L × 10" W × 7" H
- **Medium:** 20.25" L × 10" W × 7" H
- **Large:** 27.75" L × 10" W × 7" H

For added durability, a medical-grade, fluid-resistant coating covers the foam positioner. The coating is easy to clean with medical-grade disinfectant wipes or sprays. It also helps protect the foam interior during repeated clinical use. In addition, the positioner is radiolucent, with low attenuation and minimal shadowing during imaging.

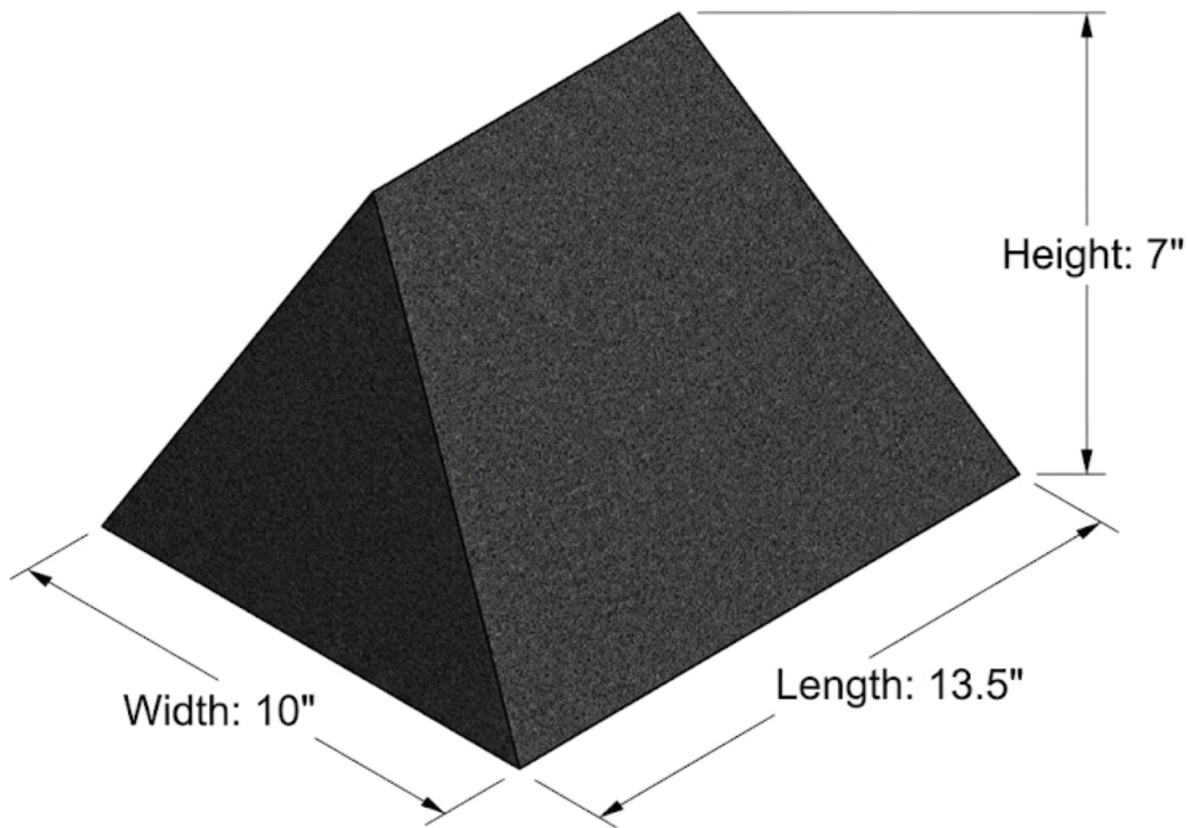

The patented N-VISI-RAY design uses flared edges to significantly reduce artifacts during X-ray imaging. Although the flared sides increase the overall size, they do not affect imaging or positioning.

Finally, the 45 Degree Spinal Flared Edge Coated Wedge is MRI Safe and latex-free. This makes it suitable for use across a variety of medical imaging environments.

SPECIFICATIONS

SHIPPING WEIGHT: 48–64 oz	MATERIAL: Coated Foam
SHIPPING DIMENSIONS: 26 × 11 × 14 in 28 × 16 × 12 in	POSITIONER TYPE: Positioning Wedges
PRODUCT SIZES: Small, Medium, Large	FEATURES: Flared Edge, MRI Safe, Latex-Free, Radiolucent, Low Attenuation, Easy to Clean
