PRODUCT INFORMATION
FLARED EDGE COATED WEDGE SET
PPFP-PCBE | PPFP-PCBH | PPFP-PCBI | PPFP-PCBJ

The Flared Edge Coated Wedge Set provides angled support for patient positioning during medical imaging procedures. Each variation includes two matching wedges and comes in a different angle and size. Available options include:

- **12 Degree:** 9.25" L × 10.5" W × 2.25" H
- **15 Degree:** 12.5" L × 10" W × 3" H
- **16 Degree:** 11" L × 8.5" W × 3.5" H
- **34 Degree:** 9.75" L × 5.5" W × 3" H

For added durability, a medical-grade, fluid-resistant coating covers each foam positioner. The coating is easy to clean with medical-grade disinfectant wipes or sprays. It also helps protect the foam interior during repeated clinical use. In addition, the positioners are radiolucent, with low attenuation and minimal shadowing during imaging.

The patented N-VISI-RAY design uses flared edges to significantly reduce artifacts during X-ray imaging. Although the flared sides increase the overall size, they do not affect imaging or positioning.

Finally, the Flared Edge Coated Wedge Set is MRI Safe and latex-free. This makes it suitable for use across a variety of medical imaging environments.

SPECIFICATIONS

SHIPPING WEIGHT: Multiple options	MATERIAL: Coated Foam
SHIPPING DIMENSIONS: Multiple options	POSITIONER TYPE: Positioning Wedges
AVAILABLE ANGLES: 12, 15, 16 and 34 degrees	FEATURES: Flared Edge, MRI Safe, Latex-Free, Radiolucent, Low Attenuation, Easy to Clean
