PRODUCT INFORMATION
45 DEGREE COATED SPINAL BODY WEDGE
PPFP-PCFD

The 45 Degree Coated Spinal Body Wedge provides angled support for patient positioning during medical imaging procedures. Measuring 21" L x 7" W x 7" H, its 45 degree wedge design helps support and stabilize the patient during positioning.

For added durability, a medical-grade, fluid-resistant coating covers the foam positioner. The coating is easy to clean with medical-grade disinfectant wipes or sprays. It also helps protect the foam interior during repeated clinical use. In addition, the positioner is radiolucent, with low attenuation and minimal shadowing during imaging.

This positioner uses a standard non-flared design. As a result, the coated edges may produce visible artifacts during imaging.

Finally, the 45 Degree Coated Spinal Body Wedge is MRI Safe and latex-free. This makes it suitable for use across a variety of medical imaging environments.

SPECIFICATIONS

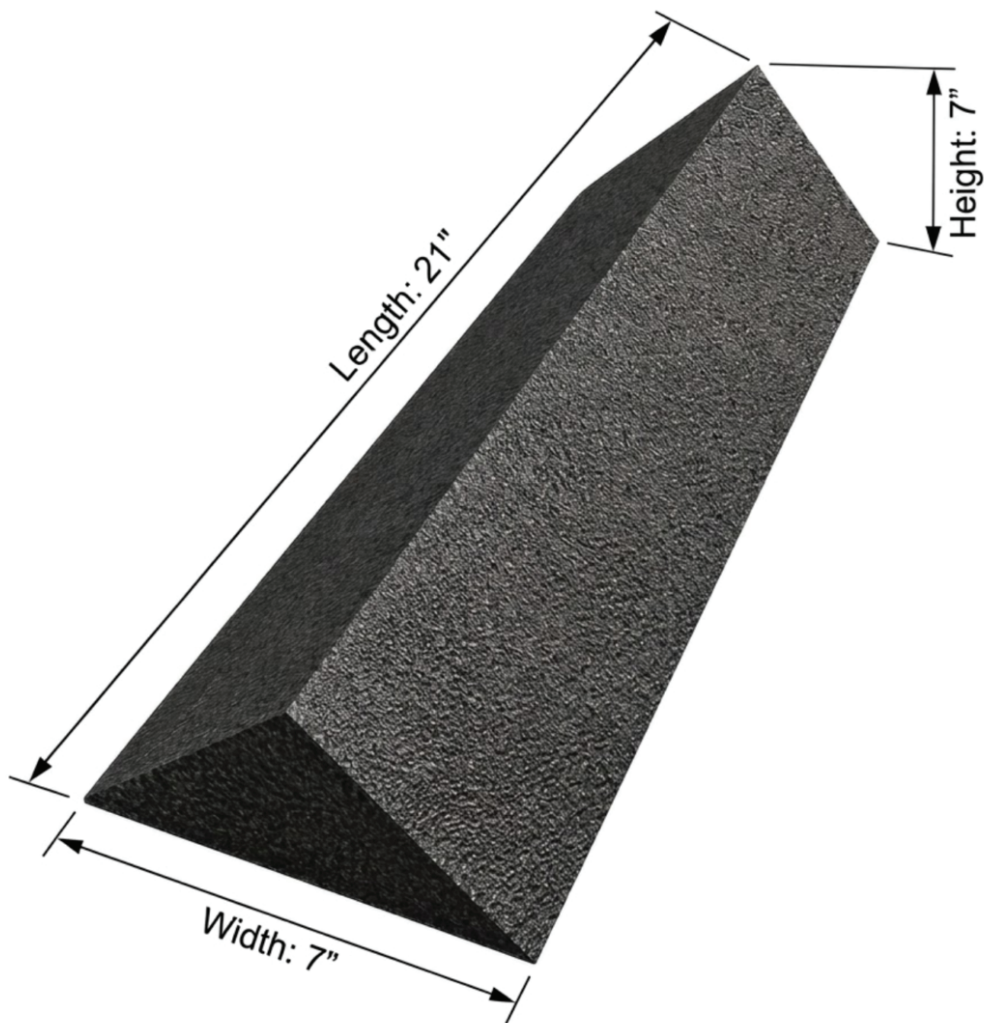

SHIPPING WEIGHT: 48 oz
SHIPPING DIMENSIONS: 26 x 14 x 11 in
PRODUCT DIMENSIONS: 21" L x 7" W x 7" H

MATERIAL: Coated Foam
POSITIONER TYPE: Positioning Wedges
FEATURES: MRI Safe, Latex-Free, Radiolucent, Low Attenuation, Easy to Clean
